Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to a system and method for inspecting an optical mask including a conductive coating, classified in class 250, subclass 310.
- II. Claims 9-30, drawn to a method for inspecting a substrate including reducing charges at a surface of the substrate, classified in class 250, subclass 251.
- III. Claims 33-48, drawn to a system for inspecting defects on a substrate, classified in class 324, subclass 751.
- IV. Claims 49-54 and 59-61, drawn to a method for inspecting insulated surfaces of a substrate including processing images, classified in class 324, subclass 501.
- V. Claims 55 and 62, drawn to a system for classifying defects in a substrate including examined images to determine features of the substrate, classified in class 324, subclass 765.

The inventions are distinct, each from the other because:

Inventions I-V are distinct, each of the inventions I-V recites the limitations not recited in the other invention. The differing limitations make the inventions I-V patentably distinct from one another, i.e., a reference that anticipates or makes obvious one of the inventions I-V would not by itself anticipate or make obvious the other invention.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Laura A. Majerus on 06-15-2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
